Orthopedic	41-50=1, 51-60=2, 61-70=3, 71-80=4, 81+=8	▶ 18	12	11	6%	5%	94%	81%
Other	51-60=1, 71-80=1, 81+=2	▶ 4	15	10	0%	12%	75%	80%
TOTAL		45						

Quality care. It's what we provide.

So it only makes sense that as we continue to strive toward the highest quality of care possible, we also look at our present efforts and find ways to enhance the patient experience. This quality outcome report is an easy way to measure how well we are doing.

Our Mission. The mission of the rehabilitation department at SGH is to provide comprehensive physical rehabilitation of the highest quality in order to improve the functional independence of those served. The primary rehabilitation team consists of physiatry, rehabilitative nursing, physical, occupational and speech therapy, and social services.

Admission Criteria. You need to have the potential to improve functional skills, be medically stable, be motivated and have an identified discharge plan. You should have tolerance to participate in a minimum of three hours of therapeutic services at least five days per week and require two of the three therapies provided: Physical, Occupational and/or Speech.

Our Stats.

- 49 admissions for 2019 1st quarter
- Family/Caregiver Satisfaction 4.97 on 5.0 scale
- 122 referrals to IPR
- Age Served (admission based): <18=0, 18-30=0, 31-40=0, 41-50=3, 51-60=6, 61-70=11, 71-81=17 and 81+=12
- Race/Ethnicity: White - 49
